

Kindbody Live: Virtual Event

Behind the Scenes: Inside Kindbody's IVF Laboratories.

Join Carli Chapman, Kindbody Embryologist and Regional Lab Director, for an inside look at the science, technology, and meticulous care that goes into building families.

When

Thursday
July 23, 2026
6:00 PM ET

Hosted by

Embryologist and Regional Lab Director
Kindbody

[RSVP](#)

This July, we're recognizing **Uterine Fibroid Awareness Month** and highlighting the experts and innovations that advance reproductive care. As we observe **World Embryologist Day**, we're taking a closer look at the science, technology, and care that power our laboratories and help individuals and families build the future they envision.

Kindbody Info Session

Get your questions answered and explore your options with Dr. Fahimeh Sasan. This month's topic is "Uterine Fibroid Education and Awareness." Join us July 16 at 3 PM ET.

KindStories: Celibeth Thomas

"Charity and Kevin, along with the entire embryology team, cared for our embryos with such precision and love, keeping us informed and supported through every update and transfer day. Our first embryo transfer took place in July 2024, and one year after graduating from Kindbody, we are blessed beyond words with our Kindbaby, Lovelynn."
